

USABILITY TESTING PLAN

[PROTOTYPE LINK](#)

GOAL:

Evaluate users' interactions with our prototype.

TASKS:

- Create a project. (Upload)
- Trade feedback about your project. (Open and reply to comment)
- *OPTIONAL*: Review your comment. (Open partner's project and view comment)

INSTRUCTIONS:

- Imagine you have been assigned to make an informational poster for your User Experience Design class and trade feedback with a partner about it. On the prototype, tell us where you'd most likely start. Please think aloud as you navigate through the designs.
- *OPTIONAL*: Now, imagine you want to review the feedback you left for your partner before you take a break.

SUCCESS CRITERIA:

- User is able to upload a project (proceed through upload flow).
- User is able to open their design in the canvas.
- User is able to reply to a comment on their design.

FOLLOW UP QUESTIONS:

1. What was your overall impression of the experience?
2. How confident did you feel when completing the tasks?
 - a. Is there another way you would have liked to complete the task?
3. Thinking of the way you currently give and receive feedback from classmates, how would this change your experience, if at all?
